

## **Beefeater Gin**

There aren't many gins left that are still distilled in London, but Beefeater gin is one of them, and it has many spicy and fruity aromas for you to enjoy.

Beefeater gin first began production in 1876 and is named after the "Beefeaters", the ceremonial guards who have guarded the Tower of London throughout history.

Beefeater gin contains nine different botanical ingredients and has a unique production process that extracts the full flavour from each of these botanicals.

You can enjoy Beefeater gin straight, on the rocks, as a mixer, or relaxing with a refreshing gin and tonic on a hot day.

But best of all, you can enjoy Beefeater gin at a price that's reasonable, so you can enjoy its full greatness without breaking your bank.

If you're ready to enjoy Beefeater gin we can deliver it to you fast and right to your door. So make sure you get yours today.
