

Cloud B

Now you can soothe your baby to sleep with these Cloud B soft toys that your baby can snuggle up to. Then...you can go to sleep yourself! These toys are designed to emit sounds, sights, and scents to soothe the senses and give your baby a happy and healthy nights sleep.

Each Cloud B toy has it's own special purpose. Whether you want to project a starry night onto the ceiling to ease fear of the dark, record personal voices to soothe your baby to sleep, mimic your own heartbeat for reassurance, or emit sounds from the majestic Serengeti, you can find a toy to do what you want to do.

Extensive research goes into each one of these products so you know they'll do what they're meant to do, and all are made of tough durable materials that can stand up to whatever punishment your baby dishes out to it.

You can view our online catalog now for more information on each of these Cloud B products and the colours that are available.
