

Drill Doctor - Gasweld

Drill Doctor are the ones who'll help you if your drill bits get blunt. They have a range of drill sharpeners that can have your drill bits operating like new, so now you can get back to your project and drill better than before.

Drill Doctor sharpeners in our range are suitable for the home or workplace. We stock the DD750X model which can sharpen wider drill bits and at greater angles. We also have the DD500X which is cheaper but still has the same standards of quality that Drill Doctor is noted for. With these models you can sharpen drill bits that are of steel, carbide, cobalt, TiN coated, and masonry.

So if you want to sharpen your drill bits then order your drill bit sharpener from the Drill Doctor today. Here at Gasweld we have a free shipping service that allows you to save money.

Drill Doctor - Tools Online

Drill Doctor is the one brand you can turn to when your drill bits become blunt and unusable. With the high quality drill sharpeners they offer, you can have your drill bit working like new - or maybe even better.

At Tools Online we stock the DD750X and DD500X models. The DD750X is better for commercial applications as it can sharpen wider drill bits and at greater angles. The DD500X is cheap and economical, and great for your home. You can sharpen drill bits of all material types with these sharpeners - steel, carbide, cobalt, TiN coated, and masonry.

So if you want to have your drill bits operating like new, then get your drill sharpener from the Drill Doctor here today at Tools Online. We only stock quality products, and we offer prices better than any of our competitors.
