

Racer Balance Bike

The Racer Balance Bike is the best way to train your child to ride a bike...no training wheels necessary! This is the bike that will teach your child balance and control, all in a way that is entirely safe.

Steering on the handlebars is restricted which prevents your child from oversteering and losing balance. The inflatable rubber tires are suitable for terrains of all types, and the seat and handlebars are padded to reduce the risk of injury.

The Racer bike weighs only 5kg and has a comfortable carry handle, so you can easily carry it with you wherever you go. It also comes with a carry bag.

The Racer Balance Bike has an adjustable seat and is suitable for children 2-5 years or up to 25kg. It is made of a high quality birchwood that is built to last.

If you want to purchase the training bike, just click above in our online catalog, click on Add To Cart, and follow the instructions from there.
